Ministry of Health
Ms. Helen Angus
Deputy Minister
80 Grosvenor Street, 10th Floor , Hepburn Block
Toronto, ON M7A 1E9

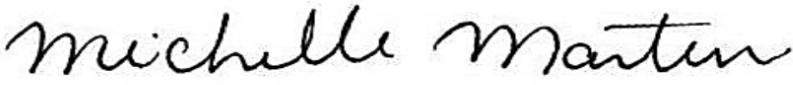

Dear Deputy,

As a signatory to this letter, we are committing our support as an Affiliate Member of the Cambridge North Dumfries Ontario Health Team. As one of the thirty-one CND OHT Planning Partners, we have been engaged in the OHT planning process over the past nine months, including participating in planning and design meetings, nominating members of co-design groups, recruiting patients/families/caregivers for focus groups, and participating in clinician and governor engagement sessions. We are committed to the vision and goals of the OHT model in Cambridge North Dumfries.

As partner in its development, we support the vision, priorities and actions described in Cambridge North Dumfries OHT Full Application submission. Given the priorities and scope of activities in Year 1, we have committed to being Affiliate Members for Year 1. The Cambridge North Dumfries model has defined an active role for Affiliate Members, as described in the full application, including input into strategies and planning, participating in co-design and implementation planning and potentially implementing re-designed integrated services. We are committing our organizations to continue to support in the planning and design of the CND OHT as we prepare to potentially become Members in future years.

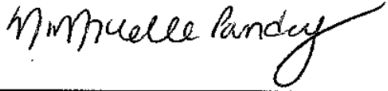

We believe that the Cambridge North Dumfries Ontario Health Team partnership will improve patient and population health outcomes, provide a better patient, family and caregiver experience and a better provider experience, and improve the value of investments our local health care system. We look forward to our ongoing collaboration and participation.
